Claim Objections

Claims 27-46 are objected to because of the following informalities: In claim 27, line 6, "said closed end" lacks antecedent basis. Appropriate correction is required.

Claim Rejections - 35 USC § 112

Claims 33-34, 36-43 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The specification, as originally filed, fails to disclose an acoustical coupling member ***within*** the enclosure and positioned between the source and the liquid medium that converts the primary pulses to composite pulses where the coupling member comprises the structure as set forth in the claims. It should be noted that claim 27 only appears to read on the embodiment of figure 7 in that only figure 7 shows an acoustical coupling member positioned within the enclosure.

Claims 33-34, 36-43 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The structure set forth in claims 33-34, 36-43 is not consistent with an acoustical coupling member ***within*** the enclosure.

Allowable Subject Matter

Claims 27-32, 35, 44-46 would be allowable if rewritten or amended to overcome the objections set forth in this Office action.

Response to Arguments

Applicant's arguments filed 9/8/06 have been fully considered but they are not persuasive. It should be noted that claim 27 only appears to read on the embodiment of figure 7 in that only figure 7 shows an acoustical coupling member positioned ***within*** the enclosure.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
